

MTF-5 ADF MEMBERS POST OPERATIONAL PSYCHOLOGICAL SCREENING (POPS) CAMPAIGN

******NOW OPEN TO ADF PARTNERS AND ADULT FAMILY MEMBERS******

Partners and adult family members are now welcome to take part in the POPS process with the ADF member. The family inclusive POPS process can provide additional support and advice to you and your partner after deployment.

The members' chain of command is responsible for arranging POPS and family POPS appointments during the campaign. For convenience, family POPS appointments can be made either during or after business hours, or even on weekends, so why not talk with the members Unit about arranging a family POPS appointment.

For general information about how Family POPS might help you and your family, you can also contact **Mental Health and Psychology Section during business hours on 07 4411 2045.**
